The long-drawn-out dead-lock in the Blair-Cambria Senatorial conference was brought to a close Monday evening at Hillsburg, when Hon. J. W. Sewell, of Cambria, was unanimously nominated.

The nomination was not made, however, until after the conference passed a resolution instructing the nominee to vote for Hon. John W. Wanamaker for United States Senator.

Probably the best way to gauge the length, breadth and depth of the sound money victory in Maine is to compare it with the vote of previous gubernatorial and presidential years—for example:

Table with 4 columns: Year, Rep., Dem., Plur. 1868 (Governor) 50,300 30,000 20,300; 1872 (President) 52,000 40,000 12,000; 1876 (President) 50,000 40,000 10,000; 1880 (President) 50,000 40,000 10,000.

When it is compared with Maine was a stronghold of official Greenbackery, and that the state was hotly canvassed by the Populists anxious to make the best showing possible for Candidate Sewell, the result is more reassuring.

If such things can happen as a result of September discussion, what will be the November verdict?

MICHIGAN has good reason for rejecting Bryanism, and if Don M. Dickinson, the former Democratic leader in the State, and General Russell Alger, the well-known Republican, are right, the State will give McKinley a large majority.

General Alger says business is paralyzed, mills and mines are either closed or closing, and values have shrunk a quarter. "The bare chance of Bryan's election," he says, "has frightened the country."

Other States are suffering in the same way. It is safe to say that there is not a worthy workman out of employment in the United States to-day who can not trace the cause to the free trade and free silver exchange agitation.

Michigan is not alone in this. The most conspicuous advocate of those two heresies.

THE unfettered Democracy of New York has swallowed itself and its record, says the Tribune. It did it without wincing, though it also did it without enthusiasm.

The convention at Buffalo Thursday adopted a silver platform and endorsed Bryan and Sewall, and under the direction of Senator Hill nominated for Governor John Boyd Thayer, of Albany.

He is the same John Boyd Thayer who, under Senator Hill's direction, presided over the State convention at Saratoga last June which sent delegates to Chicago to fight against free silver coinage.

His convictions and moral earnestness are apparently on a level with those of the master of both the Saratoga and Buffalo conventions, who one month was a gold man, the next a dumb man, and the third the wire-puller of a Bryan ratification meeting.

The whole proceeding has been characterized by a remarkable fitness of things. The organization within three months adopts two platforms of exactly opposite meaning, nominates a candidate for Governor who changes his opinions to suit the platform and is willing to run for office on any old collection of principles, and then appropriately rounds out its record by accepting as its leading spirit a defaulter who a few years ago went away in disgrace from the town where the convention was held.

WHEN CHARLES GROSVENOR, the brilliant Banker mathematician, who won a national reputation as a close "figure" during the preliminary McKinley campaign, and whose weekly bulletins were anxiously looked for from Maine to California, has again indulged in his unrivaled estimates.

Sunday night he gave out a bulletin in which he claims that McKinley and Hobart will carry the following states:

New England, 26; New York, 32; New Jersey, 10; Maryland, 6; Delaware, 2; Pennsylvania, 22; West Virginia, 6; Ohio, 20; Indiana, 13; Illinois, 22; Michigan, 14; Wisconsin, 12; Iowa, 12; Minnesota, 9; S. Dakota, 4; Kentucky, 13; Oregon, 4; Washington, 4; California, 4; total, 274.

He says further:

"Here is a total of 274 votes or fifty-four more than sufficient to elect, all of which are practically sure for McKinley."

"I come to 236 states which are still in doubt, but which under the high tide of Republican success now sweeping over the country will be almost sure to vote for McKinley, if not all of them, at least a very large proportion of them to wit: Kansas, 10; Nebraska, 8; North Carolina, 11; North Dakota, 3; Wyoming, 3; total, 38."

"Here are thirty-five electoral votes from which McKinley will surely receive enough to make good any accident that may befall the total of 274."

The remaining states, Louisiana, 8; Tennessee, 12; Missouri, 12; Texas, 12; Virginia, 12; total, 64, one or more of which is within the line of possibility. I might almost say reasonable probability."

"I concede to Bryan and Watson, or ever it may be the right time, and who I may be, Arkansas, 3; Colorado, 4; Florida, 4; Georgia, 12; Idaho, 3; Missouri, 3; Montana, 3; Nevada, 3; South Carolina, 6; Utah, 3; total, 79."

MAINE HAS SPOKEN.

The Largest Republican Majority on Record Given on Monday.

MAY REACH ABOUT FIFTY THOUSAND.

The Alliance of Democrats and Populists Utterly Routed.

The result of the election in Maine, on Monday, was heralded by the following despatch from Speaker Reed:

PORTLAND, ME., Sept. 23.—I have carried the First Congressional district by eleven thousand majority and Mr. Powers is elected Governor by a majority of fully fifty thousand.

THOMAS M. REED, Speaker of the House of Representatives, in a despatch to Chairman Hanna:

The Most Sweeping and Magnificent Victory Ever Accorded to Any Party in Maine.

Augusta, Me., Sept. 14.—Chairman Manley, of the Republican State committee, sent the following telegram to M. A. HANNA, Chairman of the Republican National Committee, Chicago:

The Republican party has achieved this day the most sweeping and magnificent victory ever accorded to any party in the history of Maine. We have carried every county in the State; elected every State Senator, 140 out of 153 members of the House of Representatives; secured every county office; given each member of our management delegation in the House of Representatives the largest majority they ever received; and elected a candidate for Governor by the greatest majority ever given to a candidate for that high office in the history of the State.

Over 82,000 Republican votes, it is estimated, were thrown and about 35,000 Democratic. The Republican vote has exceeded anything known in the history of Maine, the nearest approach to it being the 76,401 received by Governor Barlow in 1888.

Estimated on the Congressional vote, which is really the one which should be taken for comparison in this election, the Republican gubernatorial vote having run behind the remainder of the ticket, the Republican plurality will exceed 50,000 by a substantial margin.

It shows the strength of the anti-silver sentiment to be much stronger than any of the estimates yet put forth.

THE CONGRESSIONAL VOTE.—When the Republican vote for Congress is compared with that of the Democrats, it shows that many Democrats must have voted the Republican ticket, the Democratic vote fell off 25,000. As there were only about 1,000 votes cast for Clinton by the sound money Democrats, there were undoubtedly from 18,000 to 20,000 Democrats who refused to go to the poll and vote for Bryan and free silver.

The Congressional vote is estimated to be as follows: Republican, 50,000; Democratic, 25,000; total, 75,000. The Republican vote in 1884 was 40,000 and in 1880 it was 35,000.

The Republicans carry every county solidly, electing every county officer, a performance never duplicated by any political party in Maine. Knox county, which has always held out the longest, has fallen before the sweep of public sentiment, and not a solitary Democratic vote is reported.

Returned have been received sufficiently to make it certain that the Democrats will have not more than five representatives in the Legislature, which is the same number as in 1884.

POPULIST VOTE CUT IN TWO.—Under the management of Bateman, the Populist candidate for governor, his vote is cut down one-half from 1884, when it was 5282.

He attributes the weak showing made by the Democrats to Sewall's name on the ticket. The talk about resignation is again revived, and the Populists will bring strong pressure to bear to force Sewall off, using the big Republican majority in Maine as a lever against him.

The Silverites are crestfallen and disheartened over Maine's magnificent declaration in favor of honest money, protection and law and order, and their assurance of Republican losses in Maine which they flattered so boldly last week, is all gone. There is, indeed, very little real attempt made on the part of the Bryan leaders to minimize the importance of the Maine tidal wave.

THE GOLD DEMOCRATS.—A pleasing feature of the election is the distinction which the Republicans are giving the gold Democrats. The Democratic country was stronger than party ties. The right hand of fellowship is being extended to them generously.

The Republicans of Augusta further celebrated the victory Tuesday night. The McKinley Guards with their band paraded the streets, carrying torches. Fireworks blazed all along the line while the streets were crowded with people who shouted and cheered. The Democrats are planning for a great celebration.

Worst Enemy Writing.—With the rheumatism is an individual whom, if you have a Christian spirit, you would forgive. He is no matter what his delinquencies, punished enough. Nothing short of Tophet could enhance his misery. Moreover, he is in serious peril. The disease is always prone to attack his heart and kill him instantly. As a means of curing this disease, Hostetter's Stomach Bitters has the highest reputation and the most authoritative professional sanction. Its use in the preliminary stage of the complaint is the wisest precautionary measure. Rheumatism is also a remedy of the greatest utility in malarial and kidney trouble, dyspepsia and liver complaint, constipation and nervousness. It counteracts the effects of hardship and exposure in damp or inclement weather, and is a capital promoter of appetite and sleep. Give this fine remedy the persistent trial to which all medical standards of reputation are entitled.

HOLLIDAYSBURG FAILURES.—A Bank Goes Under, Followed by Several Business Firms.

HOLLIDAYSBURG, Sept. 18.—The Banking house of Gardner, Morrow & Co., one of the oldest Banking houses in this section of the State, made an assignment to John Cree, one of the clerks in the Bank, with property valued at about \$25,000 to the First National Bank of this place transferred by notes of debtors yesterday.

The failure was totally unexpected by the public, and the news caused the greatest alarm and excitement in the community, owing to the large number of depositors from all parts of Blair and Bedford Counties.

Resident individual depositors, largely so that they may be fairly paid, and of all the principal manufacturing concerns of this place and of Trustees were deposited with the Bank, and as a result of the trying up of funds, the Hollidayburg Iron & Nail Company and other concerns which were to pay their men to-morrow were to have to delay their pay.

The Bank has made no statement of assets or liabilities, but it is estimated that the liabilities will run up into several hundred thousand dollars.

The Bank, by its public notices, attributes its failure to the general business depression and failure to make collections, and that it expects to be able to pay all creditors in full.

All those creeping, crawling, stinging sensations that combine to make the tortures of any itching disease of the skin are instantly relieved and permanently cured by Doan's Ointment. Take no substitute. Doan's never fails.

FROSTY SONS OF THUNDER!

The Citizens of Somerset County Call on Maj. McKinley and Listen to One of the Best Speeches Ever Delivered.

A STRONG PLEA FOR THE MAINTENANCE OF A SOUND CURRENCY AND A RETURN TO THE PROTECTIVE TARIFF.

The Delegation Contained One-Third of the Republican Voters of the County. It was a Representative Body of Farmers and Laboring Men.

Senator Critchfield the Spokesman.

HON. WILLIAM M'KINLEY.

When the "Frosty Sons of Thunder" had crowded into Major McKinley's front yard, the next President of the United States appeared upon the veranda, accompanied by Senator N. B. Critchfield, who acted as spokesman for the visitors.

After the applause subsided Senator Critchfield mounted a chair and spoke as follows:

MAJOR M'KINLEY.—I have been asked by this delegation, with which I have come from Somerset County, Pennsylvania, to express to you my personal but also in the principles you represent.

The county from which we come is a purely agricultural county—more so perhaps than most counties of the east—and so it happens that our delegation is made up almost entirely of farmers, and as such we are interested in whatever relation to the welfare of the farmer we can find. We know no man in whom we can repose more confidence than yourself. We have noticed with satisfaction your public career and we believe that you have always proved true to every trust committed to you by your district and state, and we are satisfied that when you are called to occupy the most responsible place in the nation, as you surely will be, the interests of the whole American people will be no less cared for than those of your own district.

There is just one thing more that I want to say, and that is, that the farmers are not so much deeply concerned in good money than any other class of our citizens. By far the largest proportion of the money that is employed in the business operations of the country is paid for labor, and from the wage earners of the country it is drawn. It is not until it reaches the hands of the farmer that it is put to rest. It is not until it reaches the hands of the farmer that it is put to rest. It is not until it reaches the hands of the farmer that it is put to rest.

It is not until it reaches the hands of the farmer that it is put to rest. It is not until it reaches the hands of the farmer that it is put to rest. It is not until it reaches the hands of the farmer that it is put to rest.
